

New Center Beautification

Vivid flower displays have been planted along West Grand Boulevard from Woodward Avenue to the west end of the Henry Ford Hospital campus. Over 900 flats of lime, white and blue petunias, white and red begonias, orange, purple and white impatiens, orange marigolds and lime and bronze coleus are flourishing.

In addition, New Center's entry signs have been given a "facelift" with new colors to blend with and complement the outdoor environment.

Gary Rumpff, owner and manager of the Motor City Grill, is winning fans with his new coffee and smoothie shop on the main floor of the Fisher Building. **The Blend** also offers muffins, bagels, cookies, scones, tortes, fresh fruit, hand-dipped Breyer's Ice Cream, and a wide selection of ground coffees. Customer favorites are the Mocha Mountain Blast, the Berry Mocha, and the Banana Breeze Hawaiian Dream.

Freda Sampson, owner of New Center's **736 JAVA** coffee house, and her father, the Rev. Dr. Frederick G. Sampson, pastor of the Tabernacle Baptist Church, will appear in Public Service Announcements during the month of September to promote Prostate Cancer Awareness Month. Media spots featuring the Sampsons will mirror national spots featuring actor and musician Harry Belafonte and his daughter Shari. Both Rev. Sampson and Belafonte are prostate cancer survivors who want other men to know that early testing for the disease does save lives.
